

Our family online agreement

Creating a family agreement is a great way to start conversations about online safety and to discuss any worries you may have. Make sure you review the rules together regularly to keep them up-to-date.

We both agree to:

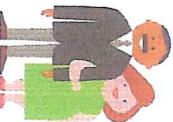

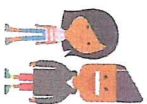

(e.g. talk about what we're up to in our online world like our offline world)

..... agree(s) to:

(e.g. ask my child's permission before posting photos of them on social media)

..... agree(s) to:

(e.g. check before I download a new app)
