HEALTH AND SAFETY POLICY

Highworth Combined School and Nursery

Where appropriate, this policy should be read in conjunction with Buckinghamshire Council Health and Safety Policy.

PART 1: GOVERNING BODY STATEMENT OF INTENT

Effective health and safety management is integral to delivering our ambition for excellence in education and our performance as a school. We are committed to high standards of health, safety and wellbeing and will take all reasonable steps to meet our responsibilities under the Health and Safety at Work Act 1974, the Management of Health and Safety at Work Regulations 1999, other relevant health and safety legislation and the Regulatory Reform (Fire Safety) Order 2005. Our overall objective is to provide and maintain a safe and healthy environment for our staff and pupils and others with whom we work.

We will achieve this by:

- Taking reasonable steps to make sure that the school is following the employer's policy and procedures e.g. through regular discussion at governance meetings;
- Promoting a sensible and proportionate approach to health and safety, making use of competent health and safety advice when required;
- Working in close partnership with the Headteacher and senior management team to support sensible health and safety management and to challenge as appropriate;
- Developing and maintaining a positive health and safety culture with an emphasis on continually improving our performance;
- Ensuring staff receive adequate information, instruction and training to enable them to carry out their responsibilities competently;
- Ensuring that health and safety management is an integral part of decision making and organisational processes;
- Providing a safe and healthy working environment for our staff, pupils and others working in the school;
- Ensuring safe working methods are in place and providing safe equipment.
- Communicating and consulting with our staff and their trade union representatives;

- Complying with statutory requirements and where possible best practice;
- Investigating and learning the lessons from accidents, incidents, near misses and work-related ill health incidents;
- Monitoring and reviewing systems and preventative measures to make sure they are suitable, sufficient and effective
- Ensuring adequate resources are available to fulfil our health and safety responsibilities and objectives;
- Working with and monitoring our contractors to ensure consistent and comparable health and safety standards.

We recognise that overall responsibility for health and safety lies with all levels of management having direct responsibility for activities and staff under their control. However, all staff have a legal and moral responsibility to take reasonable care for the health and safety of themselves and for others who may be affected by their acts or omissions.
