Parent Survey Results

N.B. Where figures do not round to 100%, this is because families may have put 'Can't comment' as a response. Only positive or negative responses are shown.

We are pleased to share with you the results from the parent survey which 123 families completed in the Summer term 2022.

As you can see, it is an overwhelmingly positive survey which we are proud to have achieved.

The most positive responses are highlighted on the table and reflect the positive responses we received from both parents, pupils and staff alike. As we all know, children are best able to learn when they feel safe and happy; we have certainly got strong foundations in place for this here.

Q11 highlights that 26 out of 123 families (21%) were not happy with the information they received on their child's progress. Prior to Parents' Evening, we will send home a piece of writing for each child, in addition to the most recent Maths test. Parents bring these pieces of work to discuss with the teacher at the Parents Evening; this helps form understanding about the progress being made by their child. Books are available to look at during the Parents' Evening.

I would like to thank the parents who took the time to complete the survey – it is an essential part of the self-evaluation cycle for our school and without your continued support, we would not be the welcoming and friendly place that we are.

Yours sincerely,

C. Dimishky
 Deputy Headteacher (Teaching & Learning)
